Why ScholarLogic ?

Expertised Faculty with Hands-On Experience
Our faculty, considered to be the best in the industry, Train & Transforming is our strength. We have certified Trainers, who have a strong passion to train, as your instructors.

Industrial-Based Course Curriculum
Course curriculum is tailored to suits every-changing needs of the industry. Alongside with all the technologies, tools will be covered.

Assignments with Exceptional Coverage
To ensure participants gain an applied understanding of the subjects, the curriculum modules are loaded with myriad assignments. Learners will also have dedicated mentors to help them with their queries.

Work on Real Time Application Projects
A minimum of 2 Capstone projects will be provided from different domains like Finance & Banking, E-commerce, Healthcare, Aviation, Pharma, Mechanical, Workforce, etc. Participants will work on massive real-time applications.

Accessibility to Faculty
Our faculty will be assisting you throughout the learning process. You can reach them in person or on our online forum if you are bogged down with any technical hassles as part of your learning.

Placement Assistance/Job Readiness Program
Our unflatering placement cell will assist you with resume building, mock interviews, building LinkedIn profiles, effective communication etc. Adding on, interviews will be facilitated with companies, according to the requirements.

Immense Training Program: Unheard-of
We believe that attending one batch may not be sufficient enough to master the concepts . So with our immense training program, you can attend one classroom and live online sessions for one year from different trainers for better engrossment and assimilation of concepts.

Pep talks from Industrial Experts
Periodic webinars will be conducted on various trending topics from industrial experts from various domains, to stay conversant with the latest happenings in the industry.

Interview Preparation Sessions on JD
We have an in-house panel of mavens who conduct boot camps, mock interviews, and resume-building sessions to equip candidates to clear the interviews.

About Company

ScholarLogic Ensures that your training curriculum aligns with the current industry demands. We keep you updated on the latest trends, technologies, and skills that are in demand in the job market. We emphasize hands-on, practical learning experiences. Which includes real-world projects, case studies, and industry-relevant assignments to give students a taste of practical application, we encourage and provide resources for their continuous learning. The industry is dynamic, and students should be well-equipped with the mindset and tools for ongoing skill development throughout their careers. ScholarLogic recognizes the importance of soft skills in today's workplace and implements them.
